# 100 Dates and a Wedding

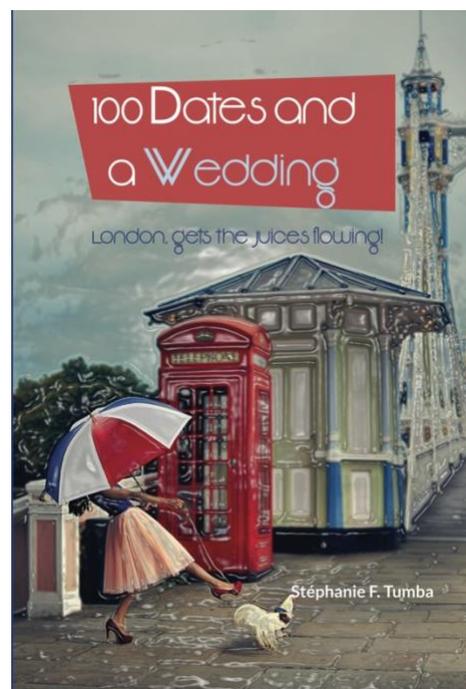

The journey to finding love again isn't always easy, particularly after a difficult divorce or the ending of a long-term relationship. *100 Dates and a Wedding* shares the journey of Valérie, a French divorcee, living in London; who is reluctantly embarking on dating again. Written by Stephanie Tumba, *100 Dates and a Wedding* draws on her own personal journey of finding love through the eyes of protagonist Valérie, recounting her move to London, her divorce, her friendships and dating, along with many more highs and lows along the way.

After being convinced by her friends to get back onto the dating scene, Valérie reluctantly gives in and begins her adventure, dating a number of different men to help her find the 'one'. From the narcissists to the men that are 'just too nice', Valérie narrates her pre-date fears and post-date evaluations.

Every woman wonder: how many frogs need to be kissed before they meet Prince Charming? How many mistakes need to be made? Do you play the game? What do you do when it gets complicated? Valérie explores these questions and more through a journey that will make the reader laugh until they cannot laugh anymore; full of lust, love and raw emotion.

*100 Dates and a Wedding* is a romantic FrenGLISH journal which evinces the garbage culture in which we live today. Between the English rules of dating, the expected texts, the expected loves, the misinterpreted messages, the words misconstrued and the language barrier, Valérie experienced the misunderstanding of love in all its splendour and the cultural clash at its worst.

The road to love is not easy, but when Valérie finds it, she realises that somehow, she actually enjoyed the ride, C'est la vie!

Based on Stephanie's own experiences of the London dating scene, *100 Dates and a Wedding* is relatable to every woman who has ever struggled with dating, highlighting the real insecurities many face when throwing themselves back into the dating scene after a divorce or bitter breakup.

*"The world of dating and finding love again can be a challenge; there will be sorrow but also joy, there will be tears but also laughter and there will be tragic dates but also fantastic ones that turn into love. I wanted to help remind people that even after the most tragic of heartbreak, it is possible to find love again, but first you must find yourself,"* explains Stephanie.

Now happily married, Stephanie is a successful entrepreneur and runs several businesses internationally, including a dating agency.

*100 Dates and a Wedding* is priced at £9.95 and is available to order from Amazon and all good bookstores.

Born and raised in Paris, France by Congolese parents, Stephanie Tumba is a London-based international entrepreneur with interests in fashion, leisure, production, publishing, toys and hobbies and property. She strives to achieve a life that is balanced between her business interests, the projects and causes she is passionate about, and her friends and family.
